

Header Set-up Day

Get the most from your yield maps!

October Workshop Program

- The benefits of yield mapping
- Do's and don'ts of collecting yield maps
- Small breakout groups with machinery type reps running through the practical points on the machines

DONT FORGET

Bring your data cards and laptop with installed yield mapping software and we can run through formatting the data card and having it all prepared for harvest

For more information
or register your participation,
phone Sam Trengove on 0428 262 057
