

# HEADER SET-UP WORKSHOP

## Get the most from your yield maps!

The workshop will be facilitated by Leighton Wilksch and Sam Trengrove from Precision Agriculture Association and will cover:

- The benefits of yield mapping
- Do's and don'ts of collecting yield maps
- Small breakout groups with various machinery representatives to run through the practical points on the machines.

Participants are asked to bring data cards and laptop with installed yield mapping software, where possible, to run through formatting the data card and having it all prepared for harvest.

**The workshop will cater for experienced users as well as those just starting out.**
